

# FIELDMASTER<sup>®</sup>

## BOX SCRAPER BLADE

(WITH SCARIFIER TINES)

PBX MODEL (FOR ATV QUAD BIKES)

MODEL SBX-6

**The Fieldmaster Box-Scrapers are ideal for levelling, finish grading, backfilling at building sites, feedlots, tracks, races, paddock levelling and more!!**

- Double (forward & reverse) cutting edges
- Formed Moldboard for superior performance.
- Reversible cutting edges are 1/2 x 6" resulting in greater durability.
- Heat-treated (dimple-on) tips for extended life of scarifiers.
- Heat-treated steel shanks scarify the ground for excellent soil preparation (height adjustable).

If you need a box scraper to perform site preparation or restoration, or use for applicable farm practices, then our heavy duty box scrapers are what you need. They are ruggedly built with the features you need.

The scarifier height can be adjusted to loosen the soil at a desired depth or raised out of the way. Each box scraper has two reversible cutting edges.

Model	Width	No. Tines	Suits H.P.	Linkage Cat.
SBX-5	(5') 1.5m	4	25-35	1
