**...smarter gear
...smarter care**

FIELDMASTER

SPECIFICATIONS

Maximising land use and your returns of primary importance. Rushes, gorse regrowth, thistles and other rubbish directly affect your profits. Flailmaster H.D. range successfully rehabilitates marginal scrubby pasture by destroying unwanted plant pests (up to 40mm diameter) and donating mulch to encourage good grass regrowth. Exceptionally high clearance makes the H.D. an excellent all round paddock maintenance machine and pasture topper. Improved 4 blade multicut system offers effective mulching with faster ground speed than traditional flail mulchers. Two blade heights give added cutting power with effective "cut and drop" for rubbish and prunings.

OPTIONS

- 4 blade mulching kit (see above)
- Full width rear roller
- 'Hot Skid' replaceable heat treated skid plates (pair)
- Friction slip clutch on PTO
- Overrunning clutch on PTO
- 1000 rpm (130hp) gearbox
